Education

ETH Zurich	Ph.D. (on leave)	Machine Learning	*Jul 2026 - present*
TU Wien	Dipl.-Ing.	Computer Science	*Sep 2019 - Mar 2025*

Experience

University of Cambridge — Cambridge, UK
Research Assistant — *Dec 2025 - May 2026*

- Wrote a custom JIT compiler for MicroGPT, reaching 5.3x over PyTorch and 14.4x over JAX.
- Landed 130+ commits across xDSL's LLVM backend and a formally verified IR in Lean.
- Recommendation Letter: sueszli.github.io/rec-cam.pdf

Python PyTorch MLIR

Qube Research & Technologies — Paris, France
Quantitative Technology Analyst, Internship — *Apr 2025 - Oct 2025*

- Designed an ensemble of statistical volatility indicators per asset class.
- Ported hot paths to zero-copy CPython extensions in Rust via PyO3, reaching 2.1x speedup.
- Validated the port against terabytes of numerical data with a differential fuzzing harness.

Python Rust Apache Arrow

ETH Zurich — Zurich, Switzerland
Research Assistant — *Jul 2024 - Mar 2025*

- Reproduced DeepMind's self-ensemble paper, tracing robustness to training, not architecture.
- First-authored a paper on image distortions that transfer across CNNs and ViTs.
- Recommendation Letter: sueszli.github.io/rec-eth.pdf

Python PyTorch JAX

Erste Asset Management — Vienna, Austria
Trading Software Engineer, Internship — *Apr 2023 - Oct 2023*

- Rewrote a multi-process market-data gateway as a single in-memory service, removing IPC.

Java Apache Kafka Terraform

Publications

Jabary, Y. (2025). Rethinking Adversarial Examples (Master's Thesis, ETH Zurich). [code, pdf]

Jabary, Y., Plesner, A., Kuzhagaliyev, T., & Wattenhofer, R. (2024). Seeing Through the Mask: Rethinking Adversarial Examples for CAPTCHAs. [news, code, pdf]

Honors & Awards

ETH AI Center, Associated Researcher	*2026*
University of Cambridge, Full Scholarship for Formal Reasoning Summer School (£1,200)	*2026*
ACM Europe, Full Scholarship for MLIR Summer School	*2026*
EPFL, Fellowship for Summer Research Institute SuRI	*2024*
University of Waterloo, Research Studentship & Award of Excellence ($35,581 total)	*2023*
TU Wien Institute of Logic and Computation, Research Scholarship (€1,200)	*2021*
Austrian Government, Teaching Grant (€3,000)	*2018*
University of Vienna, Mathematics Early Admission	*2017*
